

the energy within

The Resurgence of Offshore Wind > Making Delivery Match Design

2026

The journey to Kent

Kent Strategy

Courageously tackling the greatest challenge of our time, to bring our world the energy it needs in the most responsible way ever imagined

We design, build and maintain the assets that power the world for today and make it future-ready for tomorrow. Operationally agile and technically differentiated, we are a trusted advisor to our key clients with a global footprint, responsive and flexible to our clients' changing needs through transition to a sustainable future.

We have smart people and smart systems to partner with our clients, to deliver responsible energy production today and transition the world to a lower carbon and renewable energy future.

Who we work with:

We work with the biggest players in the industry and those pushing the boundaries into a new future.

Key clients

IOC's, NOC's, New Energy Companies and Chemicals.

Key clients, Core capability, in Core regions.

Strategic partners / investors.

Key partners

Regional supply chains.

Technology or Process partners.

Execution partners.

Where we focus:

We are responsive to our clients wherever they need us to be, and maintain a core footprint covering the Americas, Europe & Caspian, Middle East and Asia Pacific.

We work in energy and chemicals across the following core sectors and key specialist markets:

Conventional energy

Onshore Oil

Offshore Oil

Infrastructure

Decarbonisation/
Emissions Reduction

Carbon capture,
utilisation & storage

Low Carbon & Renewable Energies

Integrated gas
& LNG

Offshore wind
(fixed & floating)

Hydrogen

Decarbonisation/
Emissions Reduction

Carbon capture,
utilisation & storage

Energy storage

Waste to energy
& fuels

Electrical network
& distribution

Biofuels

Process & Chemical

Chemicals

Plastics

Waste to chemicals

Refining

Water

Our specialisms

It is our ambition to become a global leader in integrated energy services. Driven by sustainability and innovation, we play big, offering end to end services across:

Engineering & Consulting

Engineering and Consulting.

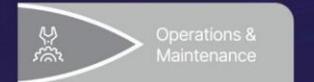

Projects

Projects.

Completions,
Commissioning
& Start-up

Completions, Commissioning and Start Up.

Operations & Maintenance

Operations and Maintenance.

25

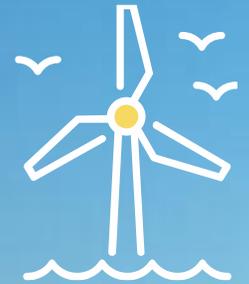

Over 45 years offshore wind experience

30

Floating Wind Projects

3500+

WTG foundations designed covering monopile and jacket structures

1

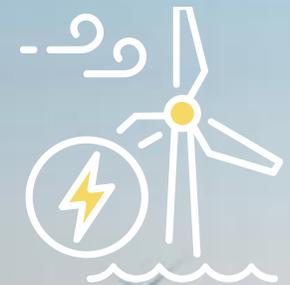

WindVision

Optimise LCOE, OPEX, CAPEX, add owner plug-ins; multiple what-ifs; holistic optimisation; database of engineering

1000+

Integrity management of over 1000 offshore wind structures

25
